

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates. The cable ownership

cap is a crucial element of our democratic media, and it should not be weakened.

There are many many average citizens depending on your organization to do it's job by protecting yhe safety of the rules that protect the Media Diversity. Believe me the safe guards are stil sorely needed, someone has got to care about trying to keep America for all the citizens and not always and only favoring the wealthiest people of this once great country. At what point does a millionaire, or a billionaire say enough already. Can you explain to me why some people are still greedy for more money when they already have more money than they can ever need? While others go homeless even though they are working at some menial job ad still can not afford to have a roof over their heads. Is there no shame!!!

Sincerely

Laura B. Afthemedes
